

Figure 1. Generalized regional geologic map of part of the Animas River watershed and surrounding regions. Major faults in the Animas River are shown as dashed lines. The Animas River is shown as a solid line. The map is oriented with north at the top. The scale bar indicates distances in miles and kilometers.

Figure 2. Regional index map showing the location of the study area within the larger context of the Colorado Plateau. The map includes labels for major geological features and a legend.

Figure 3. Generalized geologic map of part of the Animas River watershed and vicinity, Silverton, Colorado. The map shows various geological units, faults, and structural features. A legend on the right defines the symbols and colors used.

GENERALIZED GEOLOGIC MAP OF PART OF THE ANIMAS RIVER WATERSHED AND VICINITY, SILVERTON, COLORADO
